

## Air Conditioner Unit Program Agreement

I understand that the air conditioner now becomes my property. I understand I am responsible for the changing of the filter and cleaning of the unit. If I do ask The Weather Coalition to retrieve the air conditioner at the end of the summer season I understand I will have to go through the entire application process again. I understand I will not be eligible for the air conditioner program for up to two years after I receive the working air conditioner.

### 1. AGREEMENT OF AIR CONDITIONER

I understand that the air conditioner provided by the Tulsa Weather Coalition Air Conditioner Program is a gift. Furthermore, I understand that if the air conditioner is retrieved by the Tulsa Weather Coalition at the end of the current hot weather season I will have to go through the entire application process again to see if I qualify for an air conditioner. If the unit is stolen, I should file a theft report with the police department and also notify the Tulsa Weather Coalition immediately. The dollar value of the air conditioner makes its theft a felony crime. The Tulsa Weather Coalition is not responsible for repairs or issues with the air conditioner. The window unit air conditioner is a gift.

### 2. Release of Liability

I understand my signature on this agreement releases all liability of the Community Service Council, Tulsa Weather Coalition Staff, Subcontractors or Volunteers from any damage at said premises from installation, use of air conditioner and retrieval of air conditioner.
