Ratio	1.404	1.304	1.248	1.323	1.335	

2022 Report Source
U.S. Census Bureau, American Community Survey, 2021 1-Year Estimates

White Tulsans are 30% more likely to have health insurance than Hispanic/Latinx Tulsans.

Note: To ensure comparability across years, the 2022 Equality Indicators Report utilizes the 2021 American Community Survey (ACS) 1-year standard estimates rather than the 2020 ACS 1-year experimental estimates. *The Census Bureau does not recommend comparing the 2020 ACS 1-year experimental estimates with our standard ACS estimates or the decennial census [...].* (U.S. Census Bureau, 2021, <https://www.census.gov/newsroom/press-releases/2021/experimental-2020-acs-1-year-data.html>)
