2022 Report Source

U.S. Census Bureau,
American Community
Survey, 2015-Year
Estimates

South Tulsa residents are over 75% more likely than North Tulsa residents to earn at or above 200% of the poverty level.

Note: Living wage is the wage required to meet a person's and his/her dependents' basic needs without receiving any public or private assistance. 200% of poverty is a conservative estimate of living wage in Tulsa. While 2020 ACS 5-year estimates are reliable, 2021 ACS 5-year estimates were used to stay in-step with the noted use of 2021 ACS 1-year estimates.

U.S. Census Bureau, American Community Survey, 2016, 2017, 2018, 2019, & 2021 5-Year Estimates
